Gravity Ace is a twin-stick shooter where you climb, barrel roll, slide, and various other ways to avoid enemy fire and reach the flag. And what a flag! It's glowing in color, shiny, soft to the touch, and is super-exciting to grab. If you fail to grab the flag while in flight, you'll crash to the ground and respawn. Upon dying, you still have the ability to grab the flag with a tap of the touch screen, or you can tap a respawn point to earn another life. There are 5 tiers of difficulty to suit all players and as the player upgrades, their jumps and grabs will become more powerful and farther. Gravity Ace is a comical take on the classic twin-stick shooter with it's simple, high-spirited style. On the download page we got the following info: Gravity Ace is a twin-stick shooter where you climb, barrel roll, slide, and various other ways to avoid enemy fire and reach the flag. And what a flag! It's glowing in color, shiny, soft to the touch, and is super-exciting to grab. If you fail to grab the flag while in flight, you'll crash to the ground and respawn. Upon dying, you still have the ability to grab the flag with a tap of the touch screen, or you can tap a respawn point to earn another life. There are 5 tiers of difficulty to suit all players and as the player upgrades, their jumps and grabs will become more powerful and farther. Gravity Ace is a comical take on the classic twin-stick shooter with it's simple, high-spirited style. The gameplay is pretty simple: You can fly by tapping the screen or tilt the device into different directions. The more you tilt, the more the gravity will affect your jump and flights. Your primary goal is to grab the diamond flag: if it's in the middle of the ground, you can grab it with one finger, while if it's on the edge, you have to drag your finger across the screen to grab it. You can check where the flag is on the map on the title screen. Grab a star and you will start to ascend faster. Difficulty settings include: Easy, Normal, and Arcade. Easy is basically free diving, Normal is pretty easy, while Arcade is a little harder. You can use the gamepad's direction to control your jump and grab speed, and the rate of

This is the mobile version of the PC game. Navigate your way through the role-play using your body, and arm yourself with the appropriate tools depending on the current situation. Choose one of three routes depending on your role as a rookie, junior or veteran cop. Each one unique. Download now for free and discover why The Disturbance is the future of policing! Please Note: You will see the option to select between Easy Mode (default) or Normal Mode (Custom). If you choose the option to play in Easy Mode, then you will not be able to fail to disarm civilians and use excessive force. If you choose to play in Normal Mode (Custom), then you will be able to fail to disarm civilians, use excessive force, and be unsuccessful at some of your takedowns. These guidelines should apply to both the Easy and Normal modes. If you are unsure, select Normal Mode (Custom). Which option you select is irrelevant to the progression of the game, just choose the one that works best for you. Also, please note that, this is a stand alone experience, so you can only do one scenario at a time. You can play this experience in landscape or portrait mode, the user determines which mode works best. For best results, turn your device horizontally.
