I buy TVs from my audio dealer because he also sells Sony and handles my warranty issues if I have them. I have 5 Sony LCD/LED TVs. my tv was in good condition, but I replaced it with a Sony KDL-42W753. Although I already had a Panasonic bought from them, I bought a new TV because I liked Sony. It had so few problems that I decided to buy a new one. I didn't have to do anything with it. I left it on a shelf in my bedroom. I can't say the Sony was a bad TV, but it wasn't perfect either, and I've never had a problem with it.
